

Great Opportunity for the Chamber!

Joan Carter
Chamber President

The monthly inclusion of the *ChamberLink* in the *Davie County Enterprise-Record* is a great opportunity for the Chamber membership. We strive to continually connect with our members and promote their businesses to the citizens, newcomers, visitors and prospective companies. Inserting the *ChamberLink* provides the opportunity to share our member news with the citizens at large.

After all, the Chamber's success is only as good as our members and their customers! I am sure the overwhelming majority of readers know the importance of supporting our local economy – which directly impacts our tax dollars. When the economy is as sluggish as it is now, it becomes more of an issue to support the Davie business community. **Whenever possible, spend your dollars in Davie!**

I would be remiss if I did not mention the Chamber has many members located outside of Davie but conducting business in our community. When you are a small county like Davie, there are times citizens must seek businesses outside of Davie for specific products or services. Call the Chamber 751.3304 to help you locate the service or product among our 425+ members. New business members are evolving almost every day ... and *your Chamber* strives to actively promote them throughout the area.

Special appreciation is extended to the community for supporting our member businesses and to the *Davie Enterprise* for enhancing our communication efforts!

Leadership Davie ... Committed to Our Future

Leadership Davie 2008-09 class begins in September ... there is still space for four more participants! This community program developed by the Chamber's Leadership Davie Advisory Committee provides opportunities to develop and enhance community leadership by improving skills associated with planning, communication, decision-making and problem solving with a focus on understanding self, others and the community.

Monthly one-day sessions begin in October following the overnight retreat September 18-19, at Caraway Conference Center. Business and civic leaders throughout the county present the monthly sessions:

Tourism - Arts & History • Education • Economic Development & Government Relations
Criminal Justice • Energy & Environment • Health & Human Services • Non-Profit Organizations & Graduation Luncheon

"Davie County is a great place to live, work and play. Bringing current and future leaders together with a desire to continue our community's progress and success is a great opportunity made possible by the Chamber and many other organizations represented in this effort," noted Jim Cochie (Ventlab) – chairman of the Leadership Advisory Committee.

If you are interested in participating, please contact the Chamber at 751-3304 prior to August 22.

DID YOU KNOW?

District Attorney, Garry Frank, is very interested in providing Davie County with an Assistant District Attorney to handle worthless check cases for your business. This would mean no court time for business owners or their employees.

Companies would take bad checks to the District Attorney, sign a form, and the DA office will try the case for the business. This could be a great asset to business – payment would be quicker, and insufficient checks could be turned in immediately without having to accumulate enough to make the court time worth it.

"We are very close in deliberations to provide this service for Davie County businesses. Iredell and Davidson counties have this program," commented Robert Cook, Mocksville Police Chief. Comments of support should be sent to the Mocksville Police Department via email aosal@mocksville.com or mail to: 278 North Main Street, Mocksville NC 27028.

Upcoming Features ... Business in the News!

Chamber Members! – This future monthly column is reserved for Chamber members to spread good news throughout Davie County by submitting your business announcements to the Chamber. Tell us when your business reaches a major milestone, receives a special award, celebrates a grand opening or expansion.

We're looking for key information – who, what, where, why and when; along with your business contact information. We look forward to featuring your "good news" in the *ChamberLink*.

Submit information to chamber@daviecounty.com

New Member Highlights...

In addition to listing our new members each month, we plan to highlight more information about our business members. We hope members will take the opportunity to submit a brief description of their services for promotion in the *ChamberLink*.

10th Annual Davie County Pro Scramble GOLF TOURNAMENT

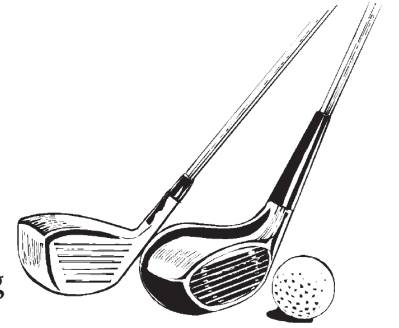

The Chamber extends special appreciation to the 2008 Pro Scramble sponsors, players, professional golfers and volunteers for another great response to our annual fundraising event. On Monday, September 8, over 190 golfers will tee it up in a Pro Choice format at Oak Valley Golf Club. Professional golfers throughout the Carolinas will "captain" the teams – made up of five (5) amateur players.

This event is not possible without the Chamber's great sponsors (as of August 15) ... and we **THANK YOU!**
