20% OFF all products with
discount code **DAVIECC20**

Comfortable
Breathable
Reusable

Engineered to meet the same fabric standards required in garments we supply to the United States Armed Forces.

★ **ADVANCED FACE COVER**

ADVANCED TECHNOLOGY

PHOBOL® Durable Water Repellent significantly reduces adsorption of liquids, oil, and water. Dust and dirt can be more easily brushed off.

Phobol® DWR

DOUBLE-KNIT INTERLOCK FABRIC of 100% Micro Denier Polyester provides superior breathability and all-day comfort.

PRECISION CUT EDGES maintain shape and resist rolling, even after washing.

DUAL EAR SLOTS allow for a quick, custom fit.

SILVERPLUS® Anti-Microbial is non-toxic and non-irritating. It minimizes odor and effectively prevents reproduction of many bacterial strands.

FOG RESISTANT design pairs well with glasses and protective eyewear. Air can be directed down and away from the eyes.

MACHINE WASHABLE fabric means you can easily wash, dry and reuse.

DISCLAIMER RockFace USA Face Covers are not medical devices and are not intended for medical purposes. They do not replace surgical-grade masks used in healthcare settings, do not provide liquid barrier protection and should not be used when caring for patients. They are intended only to be used as source control.

RockFace USA Face covers should not be used (1) in any surgical setting or where significant exposure to liquid, bodily or other hazardous fluids, may be expected; (2) in a clinical setting where infection risk level through inhalation exposure is high; or (3) in the presence of a high-intensity heat source or flammable gas. The manufacturers and RockFace USA make no warranties, either expressed or implied, that this product prevents infection or the transmission of viruses or diseases.
