From shopping, dining, gas tank fill-ups to landscaping, banking, doctor's visits and more – spending our money where we live, pay taxes and send our children to school strengthens our local economy and our community!

When we choose to purchase goods and services in the community where we live, pay taxes and send our children to school, we are investing in the well being of our community; creating more jobs, increasing revenues and creating a more prosperous place to live. When we open our wallets elsewhere – we're improving someone else's hometown, not ours. Simply put – it matters where we spend our money!
